ABSTRACT

Metrodocs, an informal library cooperative in the Oklahoma City Metropolitan area consisting of eight academic and public depository libraries, produced this compilation of model acts, legislation, statutes, and ordinances--i.e., those that have been promulgated in order to satisfy a demand for legislation covering a particular subject in a substantial number of states. This collection was designed for in-house use at Metrodocs libraries, and is not exhaustive; rather it serves to locate model acts and regulations identified in the course of normal operations. The documents listed in this keyword index originate from a variety of law journals and government documents, and may not be otherwise indexed in the standard sources for locating model legislation--e.g., "Handbook of National Commissioners on Uniform State Laws," "Suggested State Legislation," "Martindale-Hubbell Law Directory," and "Uniform Laws Annotated." Most of the documents can be found through the Oklahoma Department of Libraries. Organized alphabetically, each entry lists between 1 and 4 model acts and regulations for each of the 152 subjects areas covered. Entries are cross-referenced. (SD)

MODEL ACTS AND REGULATIONS

Model acts and model regulations are proposed laws and regulations drafted by the National Conference of Commissioners on Uniform State Laws, the American Law Institute, the National Municipal League, the Multistate Tax Commission, the Council of State Governments, U.S. government agencies, and other organizations and associations. These acts and regulations have been promulgated in order to satisfy a demand for an act or regulation covering the subject matter in a substantial number of states; or, they may be looked upon as an aid to state officials interested in drafting legislation in a specific area. Model acts proposed by the National Conference of Commissioners on Uniform State Laws may be found in the Handbook of the National Conference of Commissioners on Uniform State Laws (please note that this list of model acts is not printed in the Handbook every year); model acts proposed by the Council of State Governments may be found in Suggested State Legislation. Other model acts may be found in the last volume of Martindale-Hubbell Law Directory and in Uniform Laws Annotated.

We have prepared this keyword-in-context list for those acts, regulations, statutes, and ordinances that have the word "model" in their description and which may not appear in the sources cited above. This project started as an in-house aid for locating model acts and regulations identified in the course of normal operations. It is not intended to be an exhaustive list. Note: most of the following model acts and regulations listed in this bibliography can be found at the Oklahoma Department of Libraries.

We welcome contributions to the forthcoming update to this guide.
